

How's your body **really** moving?

60-second check

1. Can you squat to a chair without your heels lifting?
2. Can you raise both arms overhead without arching your low back?
3. Can you balance on one leg for 10 seconds, eyes open?
4. Does anything catch or pinch during everyday movement?
5. Can you train the way you want without pain or stiffness getting in the way?

Three or more "no" answers, or anything that catches or pinches? Let's talk.
